Notes

Minutes from previous meeting

Minutes from the 3rd Science Gateway primer VT (SGP-VT) meeting were accepted.

[RB] One remark: Riccardo Bruno attended the 3rd meeting.

Review tasks

[RL] None of the task leaders attend the meeting due to the holiday season.

Discussion on new proposals/comments

[RL] More and more chapters and subchapters in the ToC, relatively well structured. No merge/splitting requests arrived from the participants.

[RB] ToC looks fine.

[RL] Some topics have been imported from the XSEDE website.

[RL] No volunteer contributors have assigned to the chapters, we would need them ASAP (in a few days).

[GS] Everybody should write his/her name beside the chapter(s) where he/she is ready to contribute. (In this way, we do not have to synchronise the changes between the ToC and the dedicated excel sheet.)

[RL] It is reasonable, please follow this way. Soft deadline is Wednesday. ('Soft' = we are in the middle of the holiday season.) The ToC looks fine for everybody from technical point of view.

EGI TF participation

[RL] 9 presentations were proposed according to NF's email sent to the SGP-VT list on 1st August.

- (1) Overview from RL,
- (2) EGI.eu services from NF,
- (3) Generic gateway framework from PK,
- (4) Accounting related presentation from CESGA (nobody attended the meeting from the partner)

[DV] Monitoring topic (5) will be presented by DV or somebody from his group.

[RB] Identity federation topic (6) will be presented by RB or somebody from his group.

[SG] The commercial application related presentation (7) is one from the submitted talks to EGI-TF. I will ask the presenter to make his talk more generic.

[RL] It is important topic. No objection against the talk from the VT participants.

[GS] Cloud related topic (8) from SARA was suggested by me because it may inspire the VT members; e.g. what kind of support can be provided by clouds.

[RL] Is the hosting a SGs are considered?

[GS] No. Particularly as user interface.

[RB] Can we consider the SARA services as a SG?

[GS] Yes.

[RB] For end-users (scientists) or sysadmins?

[GS] Both.

[RL] Clean scenario for end-users would be great.

[GS] Keep in mind; the primer document addresses mainly the SG developers.

[RL] Summary: both topics (hosting SGs / SG-like usage) should be covered but not the sysadmins' point of view.

[GS] [RB] OK.

[RL] Last presentation (9) should be discussed by NF.

[GS] The VT will have 2x90-minute sessions. We have to check whether every topic is covered.

[RL] Suggestion: discussion would be great at the end of the 2nd session. Acknowledgement will be required from the remaining unconfirmed presenters.

Next meeting

18th and 21th Aug are convenient for most of the participants for the next meeting.

To be decided in the following doodle poll: <http://doodle.com/bdvdqmbq7iqw5guk>

Please complete the poll by the end of business day on the 9 Aug 2012.

WebEx meeting details (or other platform) will be sent afterwards.

Any other business

Nothing reported.

Post mortem

Due to the lack of contributions the VT meeting postponed 1 week. The new doodle pool is available: <http://www.doodle.com/nsg94uef9stcxyav>

Please complete the poll by the end of business day on the 21 Aug 2012.

WebEx meeting details (or other platform) will be sent afterwards.
