

'Science Gateway primer' Virtual Team

Meeting	Cisco WebEx Conference
Date & Time	Monday 5 November 2012, 14:00 CEST / Call ended 15:13 CEST
Host	EGI.eu / Amsterdam, Netherlands

PARTICIPANTS	2
AGENDA	2
NOTES	3
MINUTES FROM PREVIOUS MEETING	3
REVIEW TASKS	3
NEXT MEETING	5
ANY OTHER BUSINESS	5
POST MORTEM	6

Participants

Name and Surname	Abbreviation	Community/Organisation
Robert Lovas	RL	NGI_HU NIL, MTA SZTAKI
Nuno Ferreira	NF	EGI.eu, UCST
Dusan Vudragovic	DV	IPB
Shayan Shanand	SS	AMC, LSGC, SCI-BUS
Elisa Cauhé Martín	EC	University of Zaragoza

Agenda

1. Acceptance/amendment of minutes from previous meeting
https://wiki.egi.eu/wiki/VT_Science_Gateway_Primer/meetings
2. Review tasks
3. Discussion on new contributions/comments
 - Compiled version 0.1
 - Copyright and other issues
4. AppDB requirements
5. SG forum on the EGI site
6. Schedule of next meetings in October
7. Any other business

Notes

Minutes from previous meeting

No changes required.

Review tasks (Primer, AppDB, Forum)

[RL] The **meeting minutes** available on the WIKI site, please check them and notify me in email if any change is required.

[SS] What is the plan with **Primer version 0.1**?

[RL] The method is (1) edit off-line with track changes enabled, (2) give new version number for the file, (3) send back to Tibor Gottdank, and (4) Tibor merges them into one document and circulate it on the list.

[RL] There are **copyright issues** because of non EGI-Inspire project members; proper acknowledgement, etc. are needed. NF will be asked to check this with the EGI-Inspire team.

[SS] Notice: publication is planned based on the AMC contributions. AMC's work is financed from other sources.

[NF] EGI-Inspire policy team will be contacted concerning the copyright issues.

[RL] Maybe MoU between EGI-Inspire and SCI-BUS covers the joint intellectual property.

[NF] The MoU is in the EGI document database.

[RL] NF, please check it with the policy team.

[RL] Please check and comment the **AppDB** requirements on the WIKI.

[RL] There is no post on the **forum** related to SGs. EC is going to be one of the moderators on behalf of the SCI-BUS community. EC, please login first with the SSO account.

[RL] More **references** needed. DV, can you provide this for your subchapter soon?

[DV] In what format? In-line, footnote, etc?

[RL] References in the doc can be problematic due to different versions of word processors on different platforms (incompatibility issues).

[NF] There is an example in the doc version 0.1. Since the primer document will be on-line, i.e. hyperlinks can be embedded.

[DV] In-line references are the easiest ones for now.

[RL] OK, decision will be made later.

[SS] What are the differences between the two **monitoring** sections in the Primer doc?

[RL][NF] In Chapter 3: there should be provided a broader view about functionalities, but Chapter 9 is mostly about how to implement, i.e. how to use EGI services.

[SS] I agree.

[RL] Only half-page or 1-page long description is needed for Chapter 3 from DV about monitoring.

[DV] OK, next week. Maybe a part of the existing introduction can be moved to Chapter 3 with some re-phrasing.

[RL] There are **missing contributions** from Roberto Barbera. Peter Kacsuk is planning to provide more contributions. Shin-Yen was also contacted. No news from Ricardo Graciani.

[EC] What is about Chapter 4?

[RL] We are waiting for the 1st almost completely draft, and then the AppDB can be used for the list of entries as well. We need a leader for this? EC?

[EC] Accepted.

[RL] Please check the already released publications e.g. from Peter Kacsuk for this chapter.

Next meeting

To be decided in the following doodle poll with 19-21 November:

<http://doodle.com/q2ct2dtw94pszi84>

Please complete the poll by the end of business day on the 14th November 2012.

WebEx meeting details will be sent afterwards.

Any other business

[EC] What is the situation with the preparation for the next **Community Forum** (Manchester)?
Workshop and/or other event?

[RL] It is a good point, what is the deadline?

[EC] 30th November for workshops.

[NF] 'Science gateways' general workshop, and workflow related are to be planned. Gergely Sipos should be contacted. EC, please write your ideas to the email list.

[RL] Extension is needed, e.g. 1 month. Draft is to ready by mid November. The final version will be ready later but before the CF.

[NF] In the CFP there is VRE session enlisted, and there are already SGs mentioned.

[RL] We need 'harmonized' appearance there.

[NF] Please keep in mind; CF is for users (not for the SGs developers/technical experts).

[RL] OK, on the other hand SG experts are relatively close to the end-users (there is direct connection).
Let us discuss this later, once we will have more details.

[SS] Chapter 4: list of SGs might be **dynamic**. How can handle this?

[RL] Yes, it is important. Some SGs have smaller communities, SGs with different maturity levels. We have to concentrate on the most sustainable ones.

Post mortem

Nothing.
