Notes

Minutes from previous meeting

No changes required.

Review tasks

[SS] Chapter 3 is 50% ready. Section 3.3 should be checked. Contributions are needed from Peter Kacsuk as well.

[RL] Visualisation related info is welcome from ASGC for Section 3.6 based on GVSS2 experiences.

[HC] OK, write access is requested from NF.

[NF] Chapter 9 is ca. 50% ready but inputs are needed from Ricardo Graciani, Roberto Barbera, and Dusan Vudragovic. We had really valuable presentations at the EGI technical forum e.g. from (among others) DV, RB, and RG. These presentations should be only wrapped up, and written shortly in the primer document.

[NF] There were 2 blog posts about double session at the EGI TF.

[NF] A brand new service EGI.eu put in place: a discussion Forum [forum.egi.eu]. The VT may add a new topic about Science Gateways. (The tool also supports the creation of FAQs out of fora discussions). Each forum should be moderated to keep it in good shape. EGI SSO account is needed to post. The forum posts are publicly accessible.

[RL] It is important for newcomers, the posts would point to information sources e.g. to sourceforge hosted gUSE message board for technical questions. We need moderators; 1 from SCI-BUS community, 1 from INFN, 1 from EGI.eu, 1 from ASGC. The email addresses and SSO account names to be sent to NF.

Next meeting

To be decided in the following doodle poll with 25-30 October:

<http://doodle.com/dyi96qsa52qppeku>

Please complete the poll by the end of business day on the 19th October 2012.

WebEx meeting details will be sent afterwards.

Any other business

[NF] There are two new menu items on the website of EGI AppDB: Science Gateways and Workflow tools.

Post mortem

Nothing.
